NEHAL AMANULLA SHAIKH

+91 8698467217 | nehalshaikh02017@gmail.com | LinkedIn |GitHub

SUMMARY

Final-year B.E. student in Artificial Intelligence & Data Science with hands-on experience in machine learning, NLP, and full-stack AI systems. Skilled in building data-driven and AI-powered applications using Python and modern frameworks. Passionate about solving real-world problems and deploying scalable solutions

TECHNICAL SKILLS

- **Languages**: Python, C++, JavaScript, SQL
- **AI/ML:** Machine Learning, Deep Learning, NLP, Model Training, Feature Engineering
- **Data & BI:** Power BI, Tableau, MS Excel
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook
- **AI/ML Tools:** TensorFlow, PyTorch, Scikit-learn, Hugging Face Transformers, OpenAI / LLM APIs (Basic)

WORK EXPERIENCE

Data Analytics Intern, Codec Technologies

Jan-March-2025

- Analyzed large-scale datasets to generate business insights and improve reporting efficiency by 20%
- Built ML-based forecasting models to enhance prediction accuracy by 10–15%
- Automated data pipelines using Python and SQL, reducing manual effort
- Developed interactive dashboards using Power BI and Tableau
- Applied data preprocessing, feature engineering, and model evaluation techniques
- Presented analytical and AI-driven insights to stakeholders

PROJECTS

Protein Sequence Estimation using NLP (link)

- Tech: Python, PyTorch, Hugging Face, React, Node.js, MongoDB
- Built Transformer-based NLP models for protein sequence completion and mutation prediction
- Implemented real-time model inference pipeline for sequence analysis
- Integrated full-stack system for data input, validation, and visualization
- Achieved reliable predictions using fine-tuned pretrained models
- Demonstrated application of LLM-style architectures in bioinformatics

Risk Analytics in Banking

- Tech: Python, MySQL, Power BI, Machine Learning
- Developed ML-based credit risk prediction system for loan assessment
- Processed and cleaned 10K+ customer records for model training
- Applied statistical and logistic regression models for repayment prediction
- Built automated dashboards for real-time risk monitoring.

EDUCATION

- **D Y PATIL COLLEGE OF ENGINEERING, PUNE, INDIA**
  BE (Artificial Intelligence and Data Science), 2022-2026

CERTIFICATIONS & TRAINING

- Completed 2-Month Data Analytics Internship Program – Codec Technologies
- Trained in Machine Learning and Data Science Fundamentals
- Completed training in Data Structures and Algorithms (DSA) using Python and C++.
